PROFILE

Creative and detail-oriented Frontend Developer with practical experience in HTML, CSS, JavaScript, and React. Focused on building clean, responsive, and user-friendly interfaces. Actively seeking a frontend development internship to enhance skills and work on real-world projects.

SKILLS

HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Design, Flexbox, Grid, CSS Animations, Git, GitHub, VS Code

PROJECTS

Portfolio Website

Developed a modern personal portfolio with responsive design, smooth animations, and optimized layout using HTML, CSS, and JavaScript.

E-Commerce Frontend UI

Created a responsive shopping UI including product listings and cart layout with focus on user experience and clean design.

Weather App (React)

Built a React-based weather application using public APIs to fetch and display real-time weather data based on user location.
